Materials and Resources on Adult Victim Sexual Assault

A particular focus of the National Judicial Education Program’s (NJEP) work is adult victim sexual assault. Since its inception in 1980, NJEP has worked with state, federal, and tribal courts to promote the fair adjudication of these cases. NJEP creates and presents an extensive array of materials for in-person, DVD and web-based judicial and multidisciplinary education about adult victim sexual assault and the intersection of sexual assault and domestic violence.

NJEP’s curricula include research from law, medicine, and the social sciences. These curricula employ interactive teaching techniques and are meant to be adapted for local jurisdictions. All of these resources are intended for multidisciplinary audiences and are utilized by individuals ranging from judges to sheriffs to social workers.

Materials and Resources on Adult Victim Sexual Assault

**Elder Victims of Sexual Abuse**
90 minutes
Elder sexual abuse by intimate partners, relatives, caregivers, other nursing home residents and stranger assailants is a prevalent and distinct form of victimization in which the victims’ age and health further complicate the challenges that every sexual abuse/assault case presents for the courts. This curriculum presents current research, strategies for handling these cases, and exercises.

**Jury Selection and Decision Making in Adult Victim Sexual Assault Cases**
2 & 3 hour versions (adaptable to each jurisdiction)
Research shows that jurors in adult victim sexual assault cases assess the evidence through the lens of commonly held misconceptions and myths about rape, rape victims and rapists. This curriculum presents the research carried out with actual and mock jurors, as well as public opinion poll data about sexual assault. After learning about the current research, judges discuss their role in selecting a fair jury, protecting jurors’ privacy and minimizing jurors’ stress and trauma in these difficult cases.

**Interpreters in Adult Victim Sexual Assault Cases**
75 minutes
For already traumatized rape victims, encountering an interpreter untrained on sexual assault and domestic violence issues and determined to protect the image of his or her community, even at the expense of the victim, is profoundly destructive and undermines the fair administration of justice. This curriculum includes resources to improve court interpreter services.

**Raped or “Seduced”? How Language Helps Shape Our Response To Sexual Violence**
2 hours
When we discuss sexual assault, we constantly use the language of consensual sex to describe assaultive acts. In addition, we describe violence against women in passive terms, which allows the perpetrators of this violence to remain invisible and unaccountable. We also use language that objectifies or blames victims. This curriculum explores the language of violence against women: how we talk about and write about these crimes. Using case law examples, participants will practice re-writing text in ways that more accurately depict the true nature of the crimes.

Women in Drug Treatment Courts: Sexual Assault as the Underlying Trauma
