### 2022-2023 BUDGET INCREASE REQUEST FORM

The student budget is developed in accordance with federal guidelines to allow for standard education-related expenses that most students experience. The University does understand that some students may have expenses that are higher than the standard budget.

Students should consult with the Law School Financial Aid Office to determine whether or not the expense can be included in their budget. When practical, students are encouraged to speak with our office prior to incurring the expense.

We will review your request to determine if you have expenses that are **reasonable** and **qualify** according to federal regulations and University policy, but are not included in the standard budget. The University is subject to the constraints imposed by the Department of Education in allowing expenses that meet the following criteria:
